## TO WHOM IT MAY CONCERN

DSB International School is proud to be associated with Trailblazers. Our association goes back over four years during which they have organised for us a variety of residential trips with programmes designed specifically to our requirements.

They have gone to a lot of trouble to understand our needs, our priorities and the ethos of the school. They have chosen hotels that, while not exorbitant, were clean, safe, obliging and which provided nutritious and tasty meals, basically Indian but adapted to western taste.

We have been impressed by the commitment and training of the instructors, their flexibility, their enthusiasm, their depth of knowledge and their relationship with the children. Through them our pupils have had a wealth of experiences, visiting places we would never have discovered ourselves, while at the same time showing, and teaching, a sensitivity to the local environment and people. They have seen that the pupils got hands-on experience at every opportunity, and lead sessions in a diversity of contexts e.g. meditation and astronomy.

If you want your children to have good teaching and learning experiences, delivered by providers who know their subject, then I have no hesitation in recommending Trailblazers and their team of organisers and instructors.
