

École Mondiale World School

(Implementing all three IB* programmes)

March 2, 2006

Mr. Ranjan Biswas

Dear Ranjan

Once again it has been a pleasure working Trailblazers for our school trips.

Personally, I attended the Saatal trip for the second year running and was pleased to return with the objectives and aims of the trip fulfilled. With different groups of students the aims are not always the same. It is great to work with a group who understands this and is able to accommodate the needs of each group.

Tailblazers undertook two class trips for our school this school year. Both were excellent with safety and thorough organization paramount. It is a good feeling when these issues are treated very seriously by Trailbalzers with without the school having to check at each step of the way.

The trip leaders and companies you use have a level of professionalism that is expected by international schools. The standard of program you provide is no less than I would expect for any international organization regardless of its location. One particular area of expertise that is important to our school is your "environmental culture." This is something we are trying to incorporate into our school programs and it is a pleasure working with a group who also express the same values and attitudes.

I look forward to working with you again in the future. I would be happy to be contacted at the school if you wish me to provide any further or more specific information.

Sincerely,

Marlene Sewell
Head of Middle Years grade 6-10.
